Dal 8/12

Evacuation as a remedy for malaria appears to be somewhat of a novel nature Malaria is a disease which yields to certain definite treatment and the proper course would be to popularise genuine treatment and improve the Sanitation of the locality by draining off marshes nearby and fill up insanitary pits and pools Money should be spent on these items and not on shed materials Even assuming that Evacuation is good it is not clear what is going to be done with the area Evacuated and how it will be improved It cannot be that the people Evacuating their homes will always be content duck to bear the

in the sheds. Instead of sinking ponds in sheds malaria, it would be far better if Quinine treatment is ~~given~~ given to all the malaria patients in the locality and the insanitary surroundings ~~are~~ improved, by expenditure of the sum now set apart for shed malaria.

The Sanitary Commr's views are asked on record and it would be worthwhile to know what he thinks of this proposal

MC

Resolve)

Neither the President nor the Dr Comrs letter contains full particulars details of the scheme Camping out and living in sheds is always a temporary expedient How this will benefit the people is not clear How long the people should keep out, what will be done in the period to free the town from malaria What guarantees there are that when they do get back they will be able ~~for~~ to live in the same locality in the town without being subject to malaria again none of these points is dwelt upon in the report While this is so the proposal ~~scheme~~ of

expenditure of Rs 1000/- would not seem to be profitable The D.C. Comr may therefore be asked to submit the full details of the scheme with the Civil Surgy Offr's proposals thereon the Sanitary Comr who may also give his own opinion on them

(2nd member) 13/12/19

The proposal has emanated from the Municipal Pres. The Municipality have none them a mile & probably intended to camp out the fountain at a safe distance from the town — But the Civil & the people will be constantly exposed when same epidemic & they also will have to camp out. Practically it comes to this that in case of fire, the whole town will have to be evacuated & the fact abandoned which is not practicable.

The Sanitary Comr may be specially consulted as regards the utility of the suggested scheme

It is a case of abandoning that which is obvious in favor of something which is fanciful. In my memorandum presented to the Municipal Council on the 4th. June 1919 (copy of which was submitted to Government with my letter No. G. C. 517 of the 7th. idem), I laid stress on the need for securing water-tidiness in the vicinity of the tank and for dealing with the few mosquito-breeding places in the town itself. Little or no action appears to have been taken in this respect.

2. The employment of a gang of coolies under the local sanitary inspector and an outlay of half the sum that is now proposed for the purchase of shed materials - with systematic quininisation carried out side by side would by now have resulted in a greatly reduced incidence of fever in the town

3 In connection with a report received from the District Medical and Sanitary Officer, I have condemned evacuation as a means of combating malaria. Evacuation - if it helps anything at all - helps to accentuate the present situation by predisposing people to attacks of malaria owing to exposure, discomfort and the inclement weather Malaria lurking in the system will also readily manifest itself under these conditions.

B. Ramaswamaiya, Esq , B A , B.L ,
Secretary to the Government of His Highness
the Maharaja of Mysore, Revenue Department,
Bangalore

Sir,

Owing to the prevalence of Malaria in the Tiptur Town, the District Medical and Sanitary Officer of this District had been to Tiptur, collected some leading citizens on 28th October 1919 and suggested some relief measures and has sent to me a copy of the measures suggested by him for being carried out

"Providing shed materials, so that people may live in sheds outside the malarial zone" is one of them

In accordance therewith, the Municipal Council of the Tiptur Town have resolved at a meeting held on 30th October 1919, to set apart a sum of Rs 1,000/- from Municipal Funds for the purchase of shed materials for distribution at cost price to enable such of the townspeople as wish to do so to live outside the malarial zone This amount, it is reported by the President, is not provided in the budget

As the matter is urgent, it is requested that sanction of Government may kindly be accorded to meet Rs 1,000/- out of the closing balance of the Municipal Funds at the credit of the Municipality for the purchase of the required materials to be eventually recouped by the sale of them

Copy of the President's letter in the matter is herewith

Letter No 83, Dated 11th November 1919, from the President, Tiptur Town Municipal Council, to the Deputy Commissioner, Tumkur -

"I have the honour to bring to your kind notice, that at the Municipal meeting held on the 30th October 1919, it was resolved to set apart a sum of Rs. 1 000/- from Municipal Funds for the purchase of shed materials for distribution at cost price to enable such of the townspeople as wish to do so, to live outside the town in sheds on account of prevalent malarial fever in the town

This is one of the measures proposed by the District Medical and Sanitary Officer for combating the disease

Asthe sum of Rs 1,000/- now proposed to be spent has not been provided in the Budget for 1919-20, I request that you will kindly obtain the sanction of the Government for incurring this extra expenditure from the Municipal Funds The District Forest Officer Hassan District may also be kindly requested to supply this Municipality with the following quantity of shed materials, viz small bamboos Rs 320/- worth, Big Bamboos Rs 125/- worth, Small kaves Rs. 100/-, Big caves Rs 100/- and Rs 100/- worth of Badey grass for thatching sheds

The matter is, as you are aware, one of urgency and early sanction is solicited The amount is expected to be recouped when the shed materials are sold to the public"

Deputy Commissioner,
Tumkur District

D.N

Proceedings of the Government of His Highness the Maharaja of Mysore.

Read:-

Letter No.Ml.C.153 L.B. 19-20 dated 29th November 1919 from the Deputy Commissioner Tumkur District submitting the resolution of the Municipal Council of Tiptur re the purchase of shed materials to be distributed to the people at a cost of Rs.1000/- on account of Malarial fever in the town, so that people may camp out of the Malarial Zone.

Order--No. R 885D

Dated Bangalore, the 6th February 1920.

Government do not consider that camping out is an efficacious method of avoiding malarial infection. The Deputy Commissioner is requested to push forward the measures already recommended by the Sanitary Commissioner to check the spread of Malaria in the town.

By Order of the Council

for Secretary to Government,
Revenue Department.

To

The Deputy Commissioner, Tumkur District.
